

Reports:

- Particular book availability
- Person's book issuing history
- The amount of books taken every month

Formatting:

- Validation if a book is returned or not
- The amount of books in stock
- Fine amount
- Cancelation of a reservation

There may be cases when a book is not returned, therefore it should either be erased from the the database or calimed to be stolen.

For that and other reasons, the amount of books in stock could decrease. Also, there can be a case when the book that has been returned isn't the exact book that was taken.

Fines should be formatted once they repayed. Moreover, they should be summed if there are more than one fine detected.

Reservation can be canceled due-to the absence of a person. Or, if a person no longer needs the book.
